Tool Info
Model A
SUTURE PATTERN
P1
P2
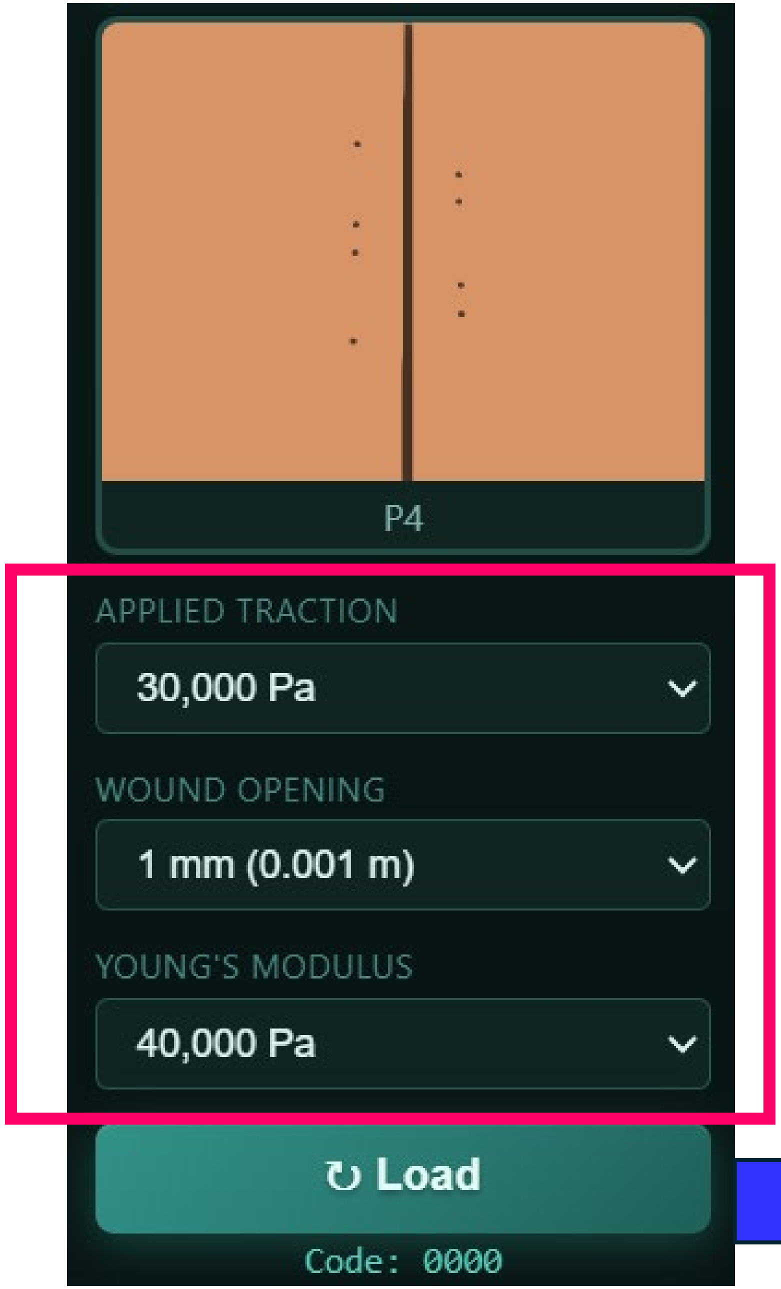
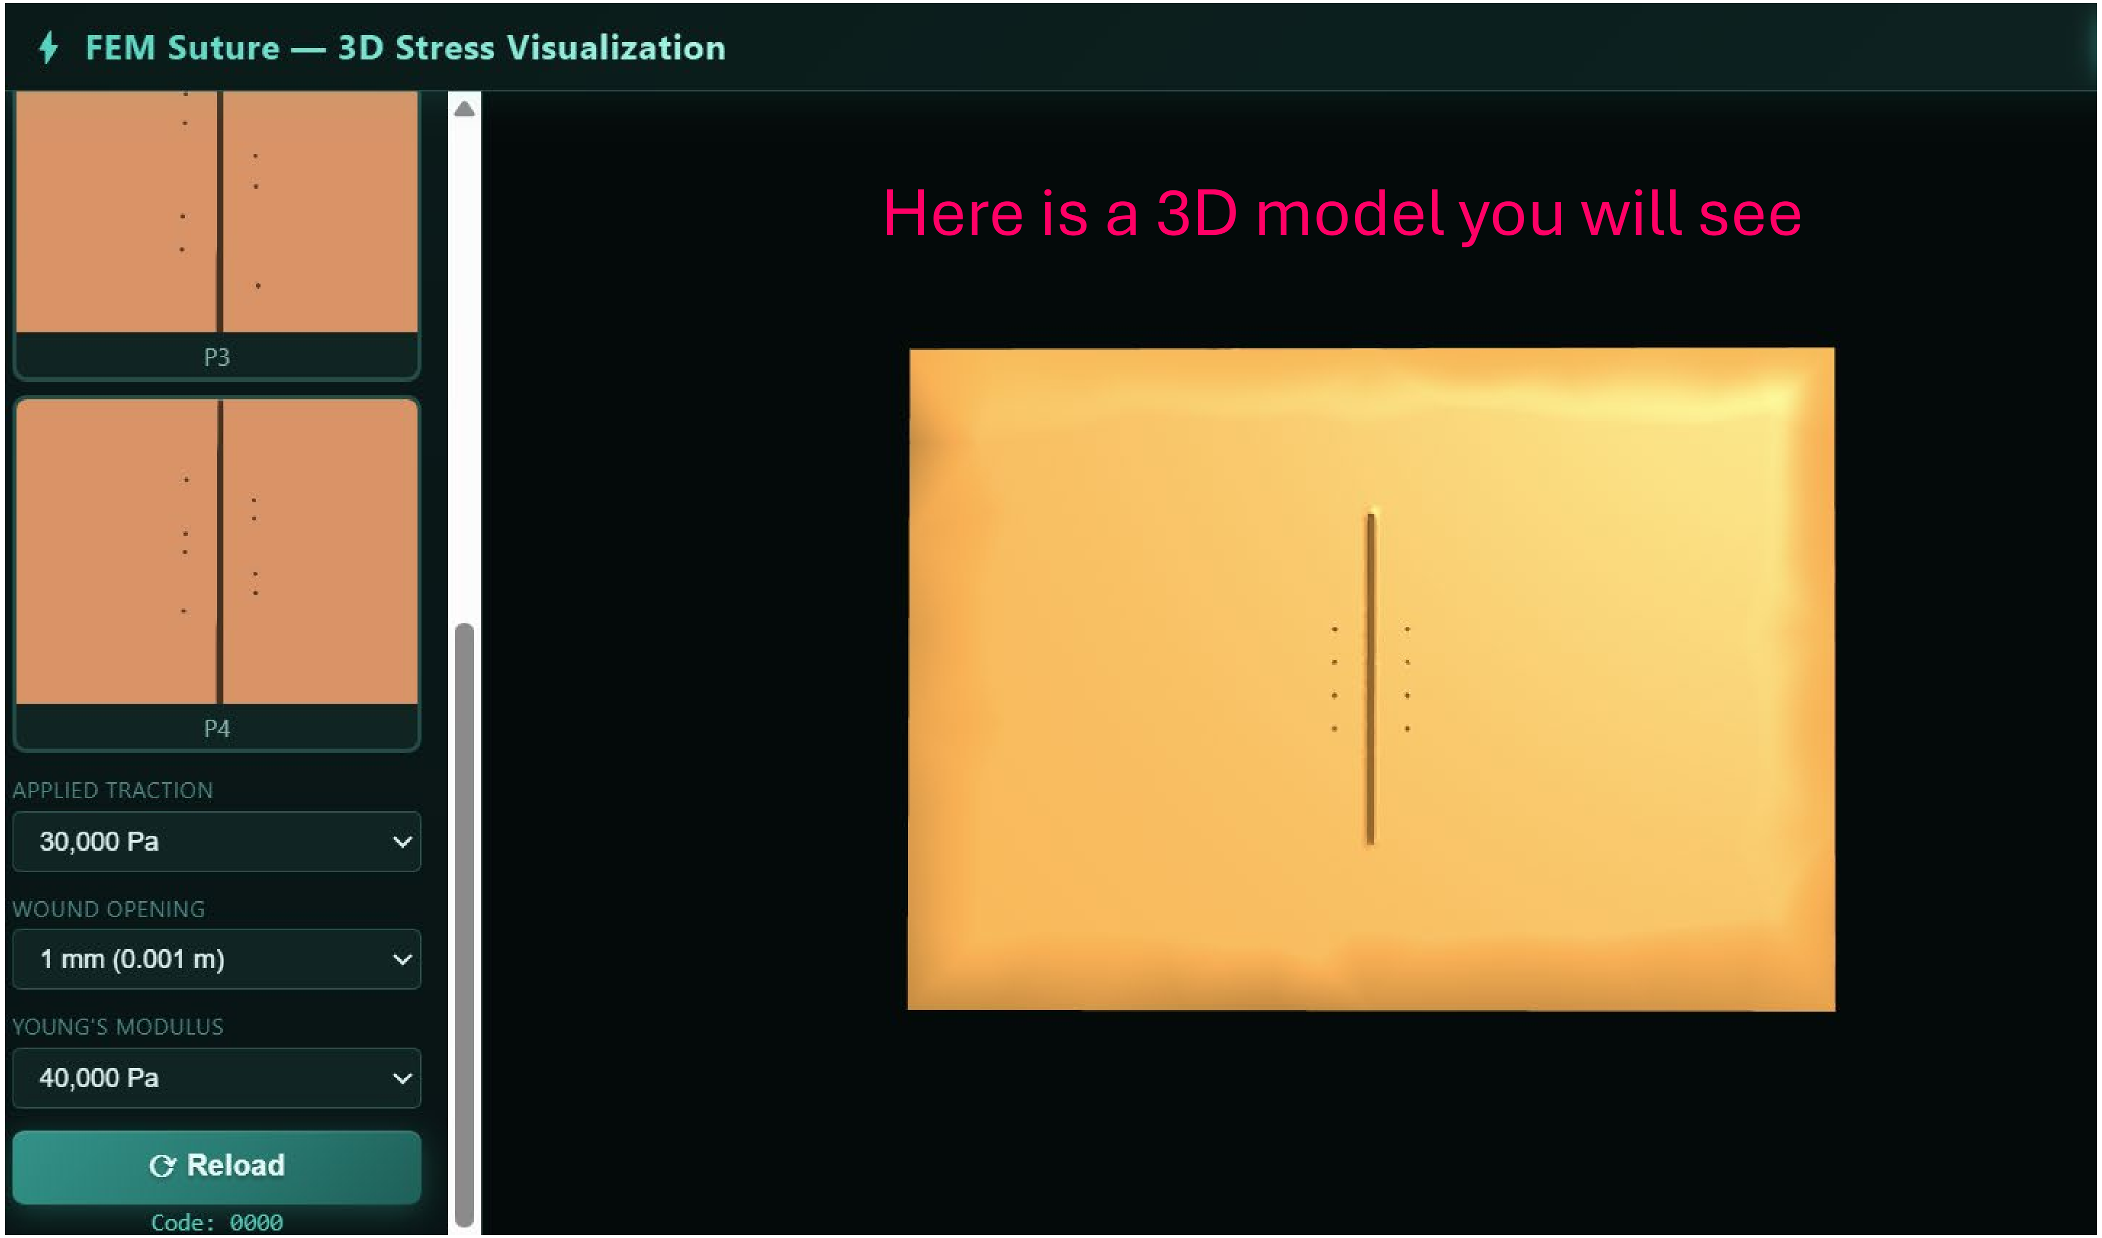
There are 4 patterns of sutures you can select (P1-P4)
Select parameters
and click Load
Scroll down to see all patterns and other parameters



From these 3 drop-down menus, input:

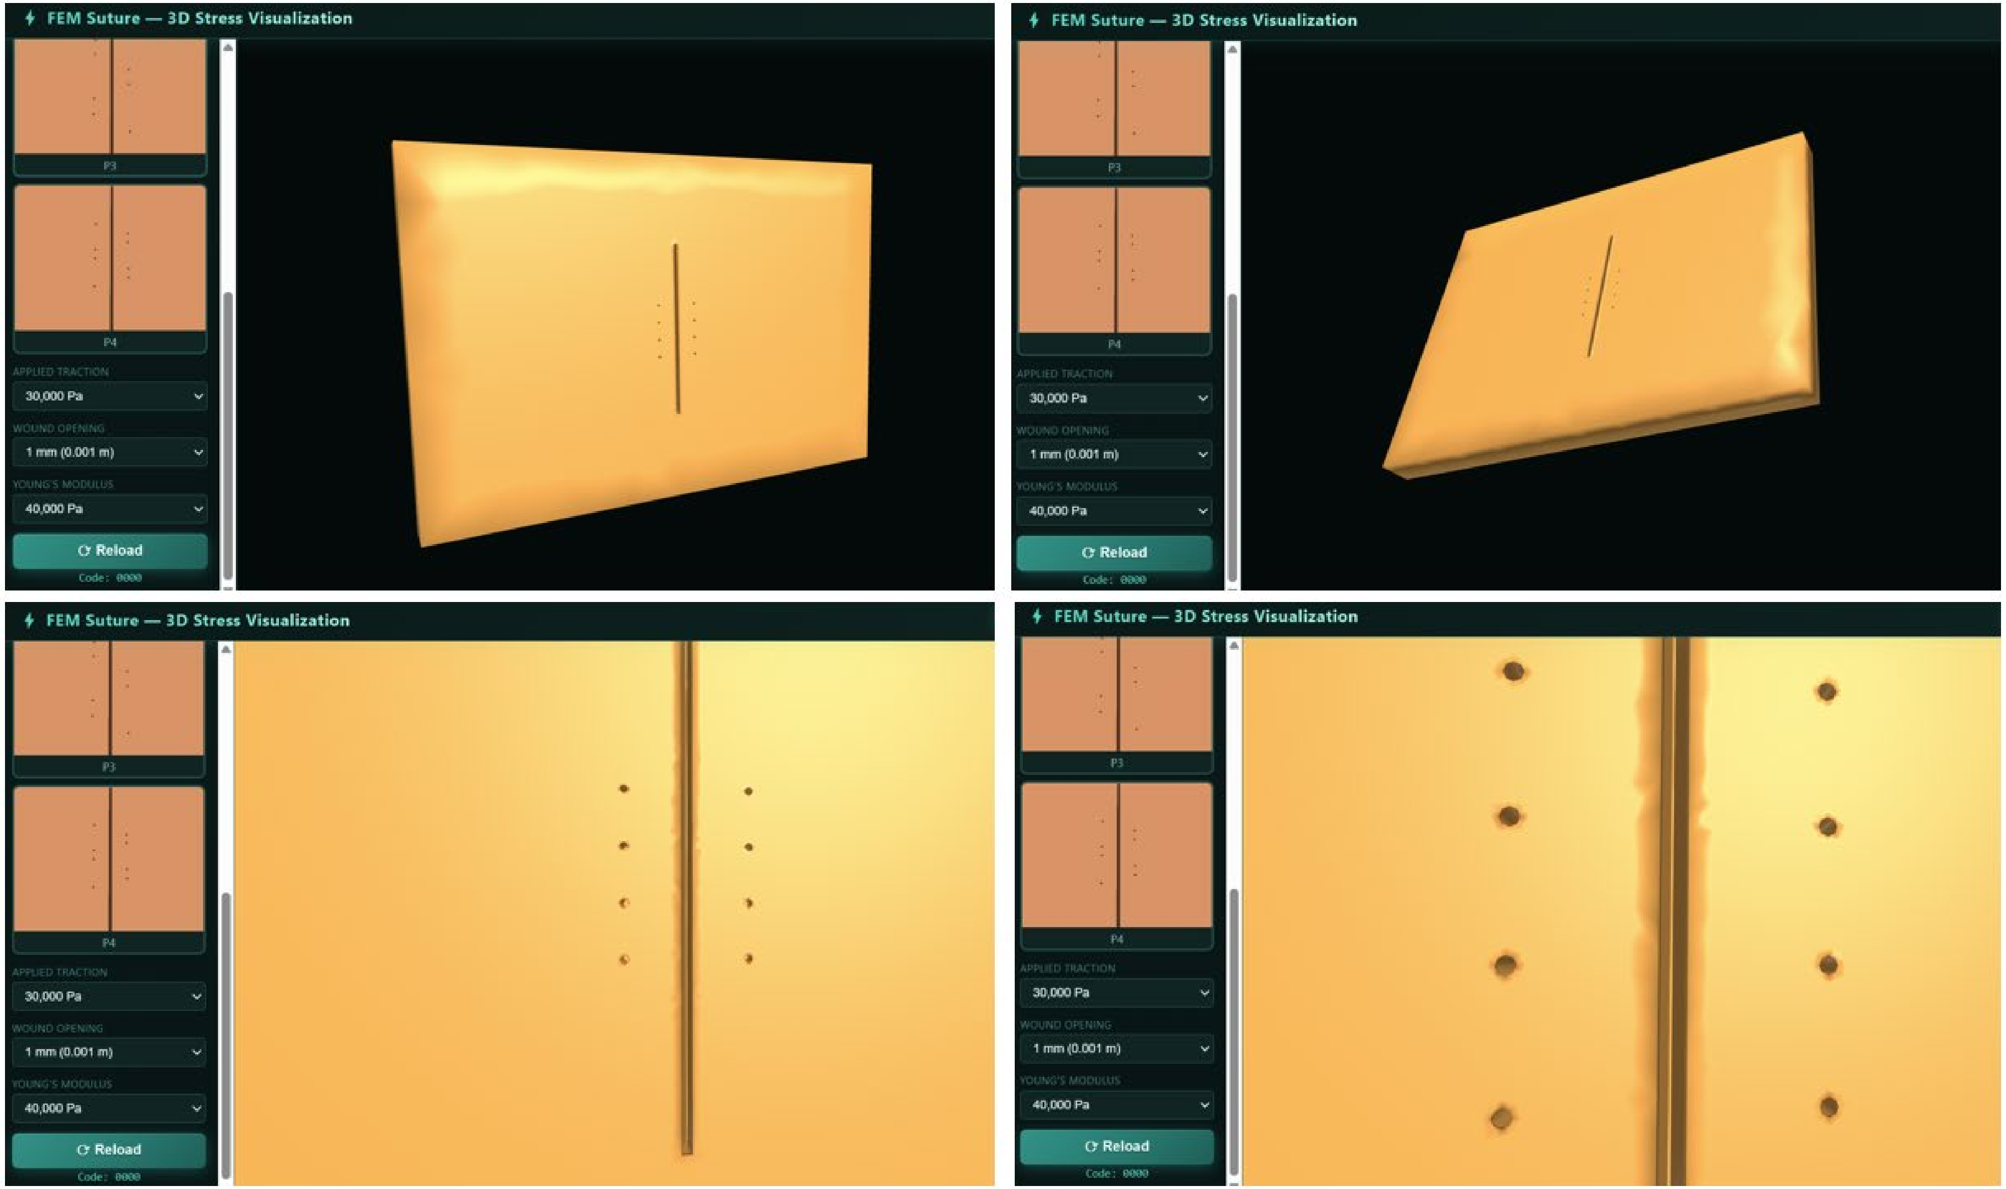
- APPLIED TRACTION
- WOUND OPENING
- YOUNG’S MODULUS

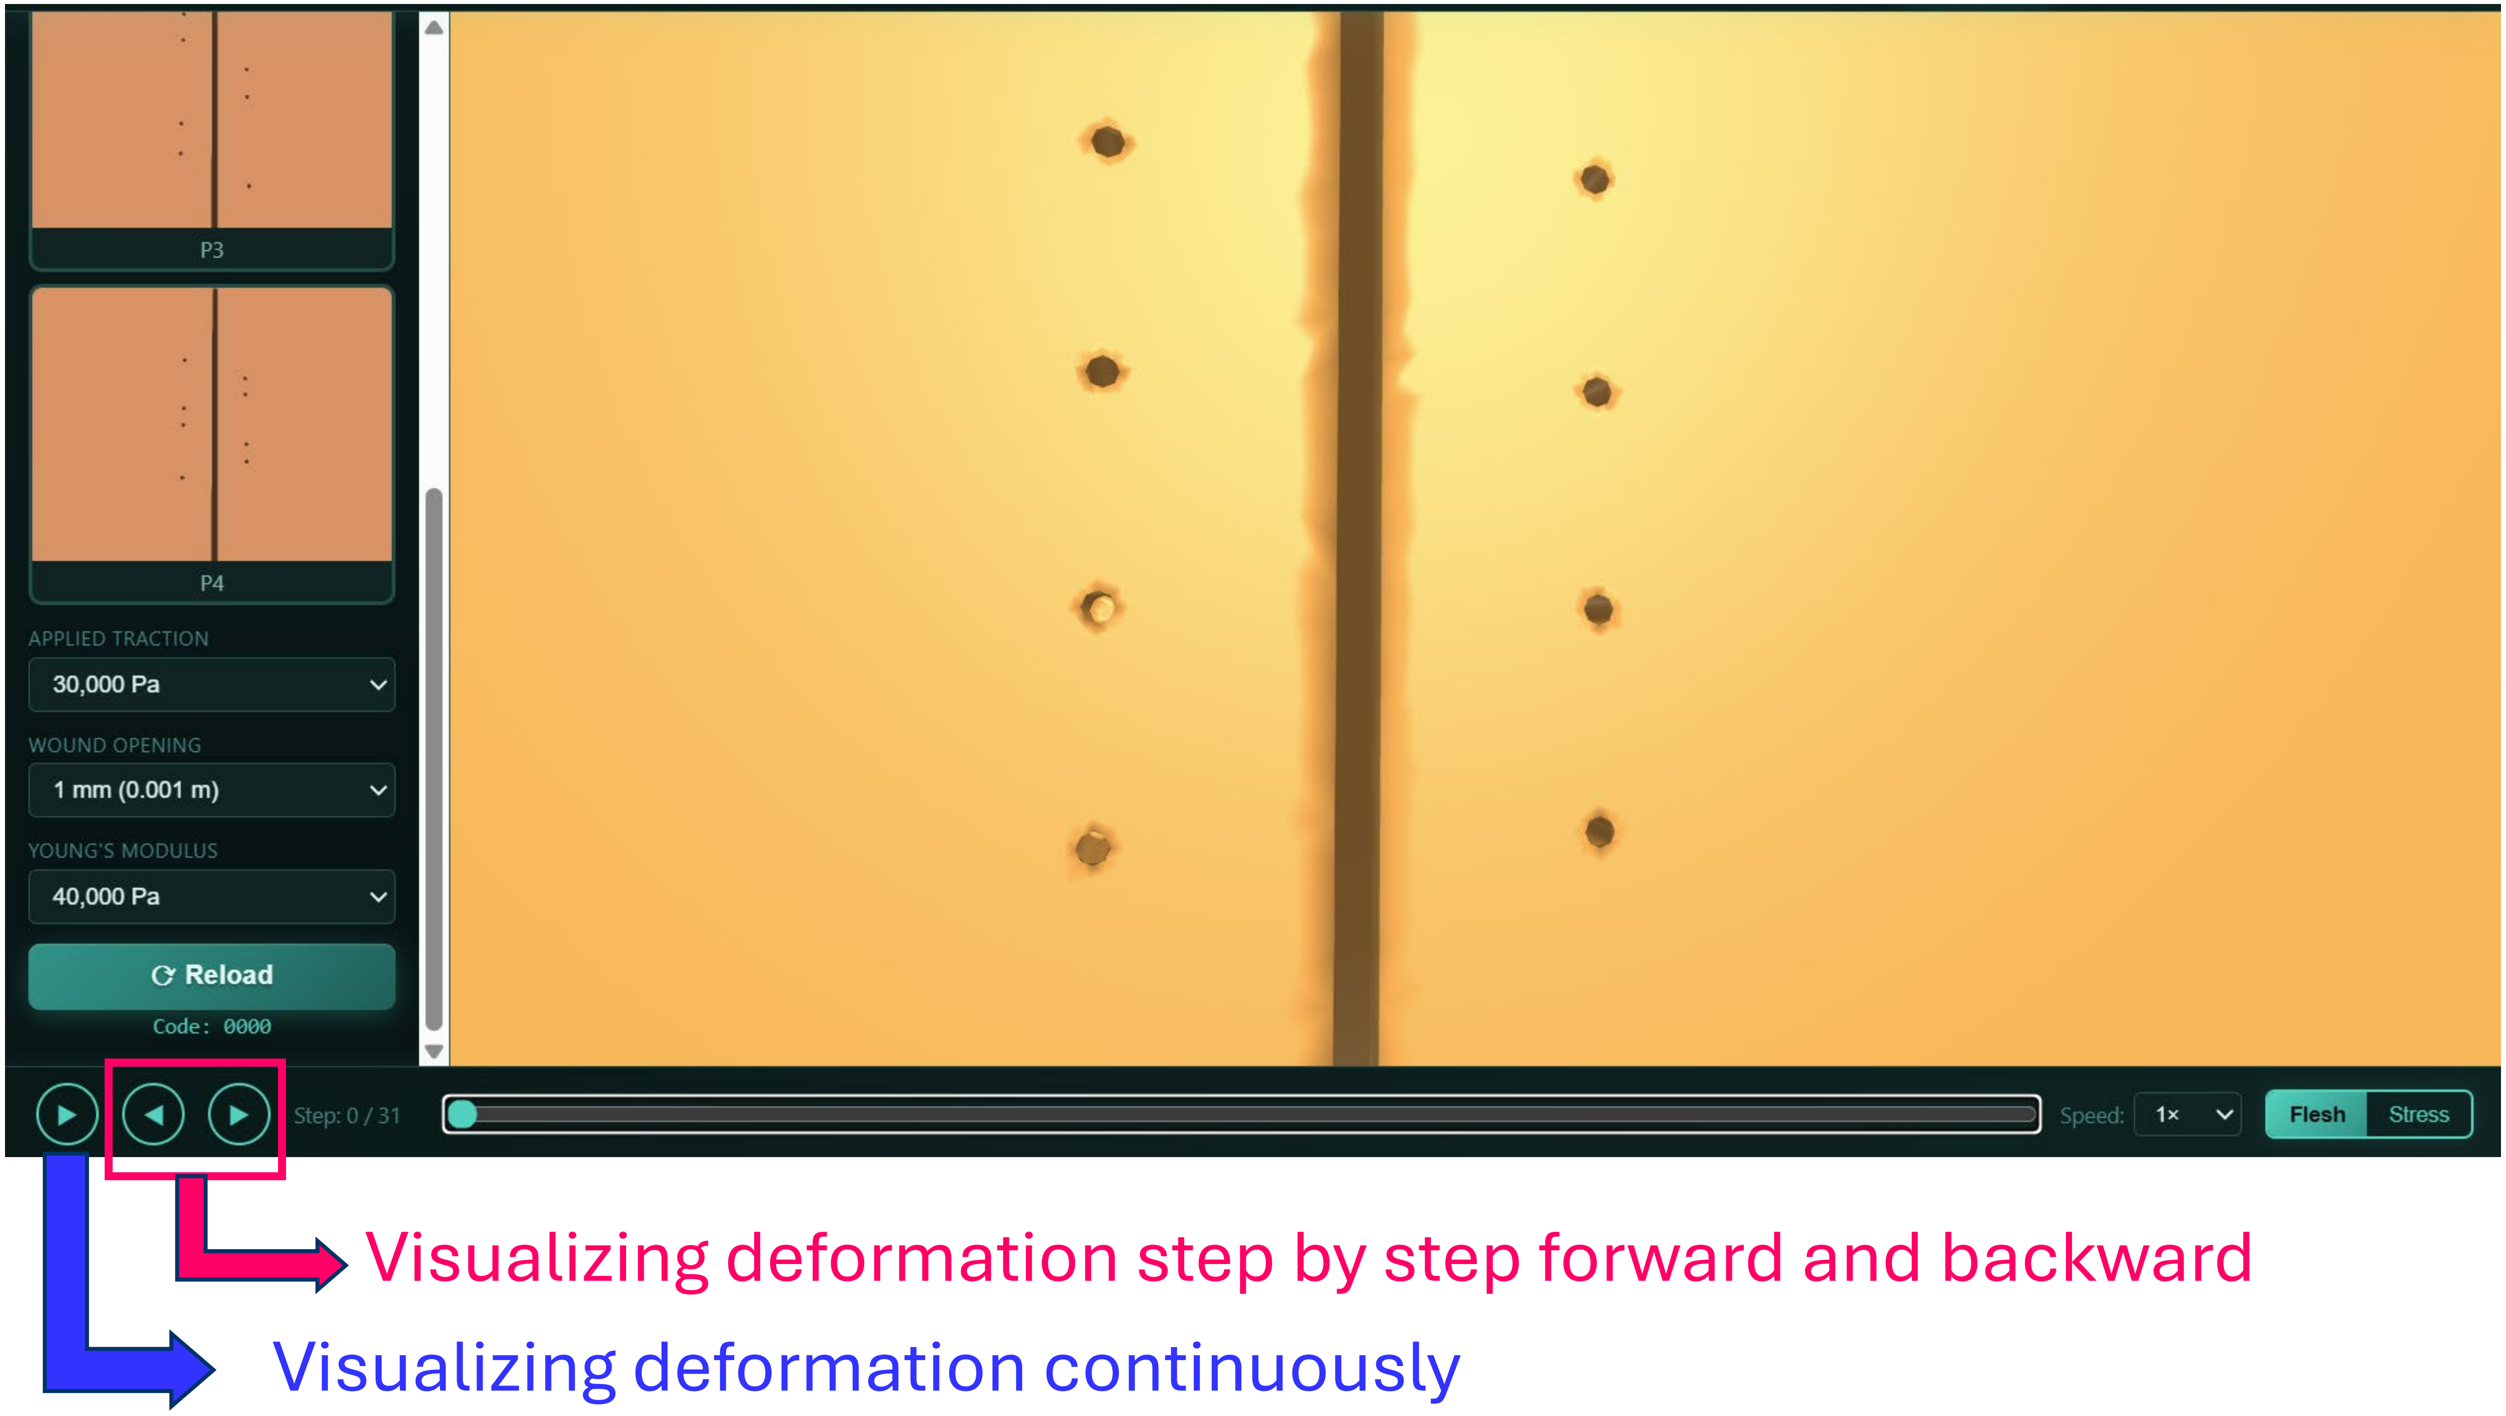
Click on **Load** to see the 3D model



FEM Suture — 3D Stress Visualization
P3
P4
APPLIED TRACTION
30,000 Pa
WOUND OPENING
1 mm (0.001 m)
YOUNG'S MODULUS
40,000 Pa
Reload
Code: 0000
Here is a 3D model you will see

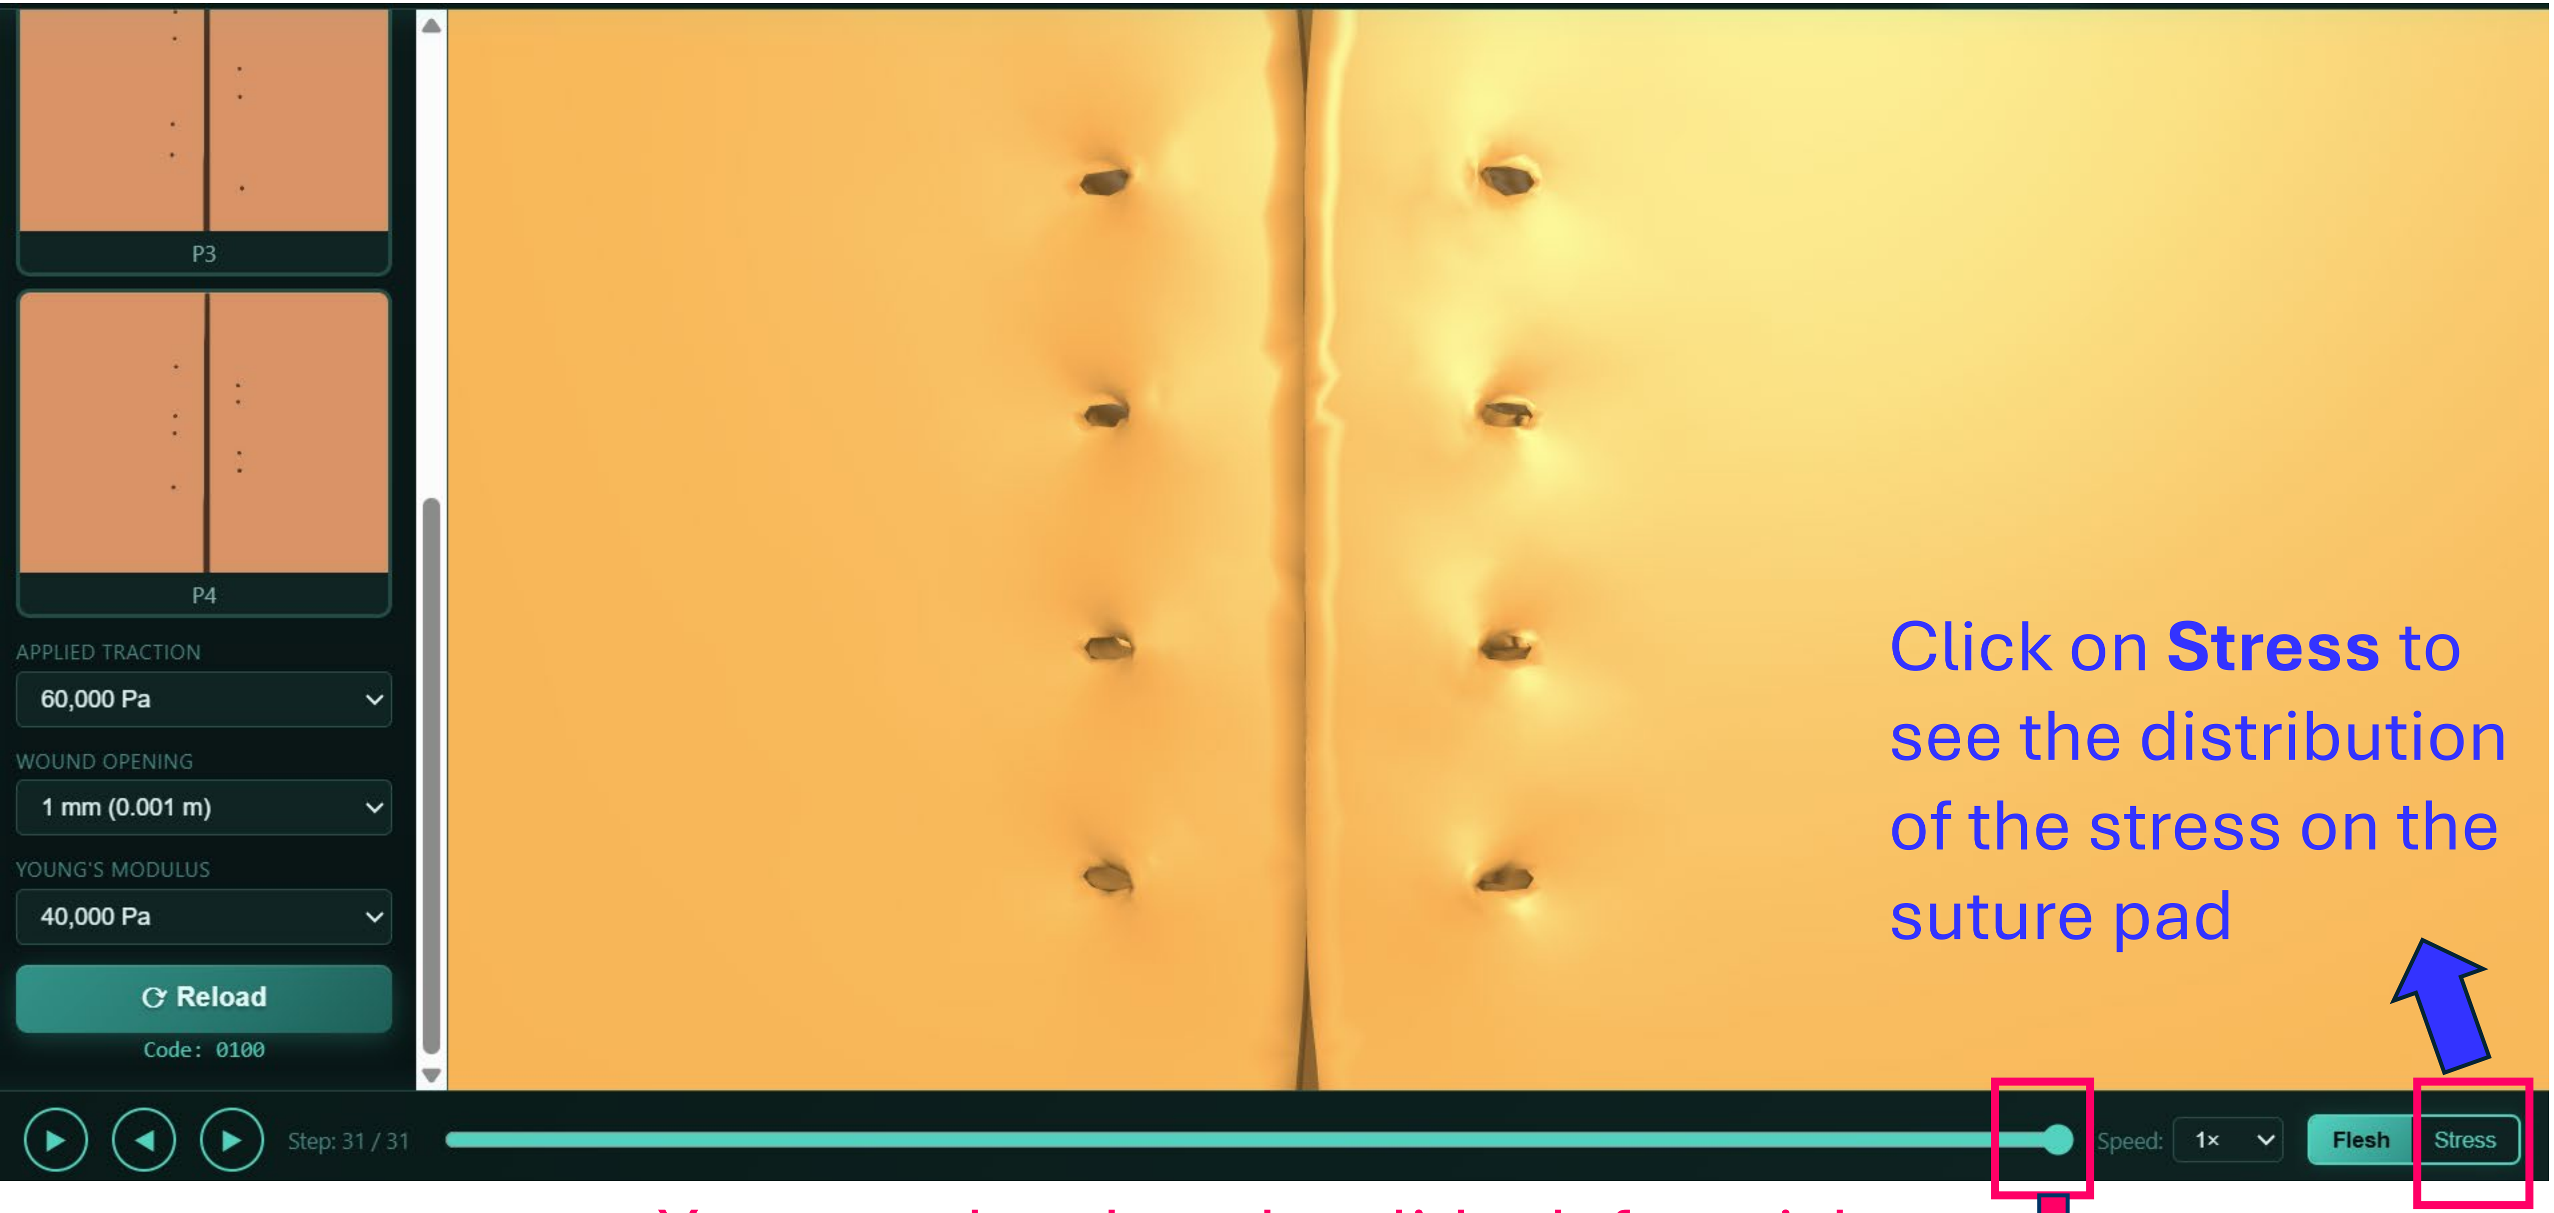
Use the mouse to interact with the 3D model by rotating, panning, and moving it. You can zoom in and out of specific areas using the mouse wheel



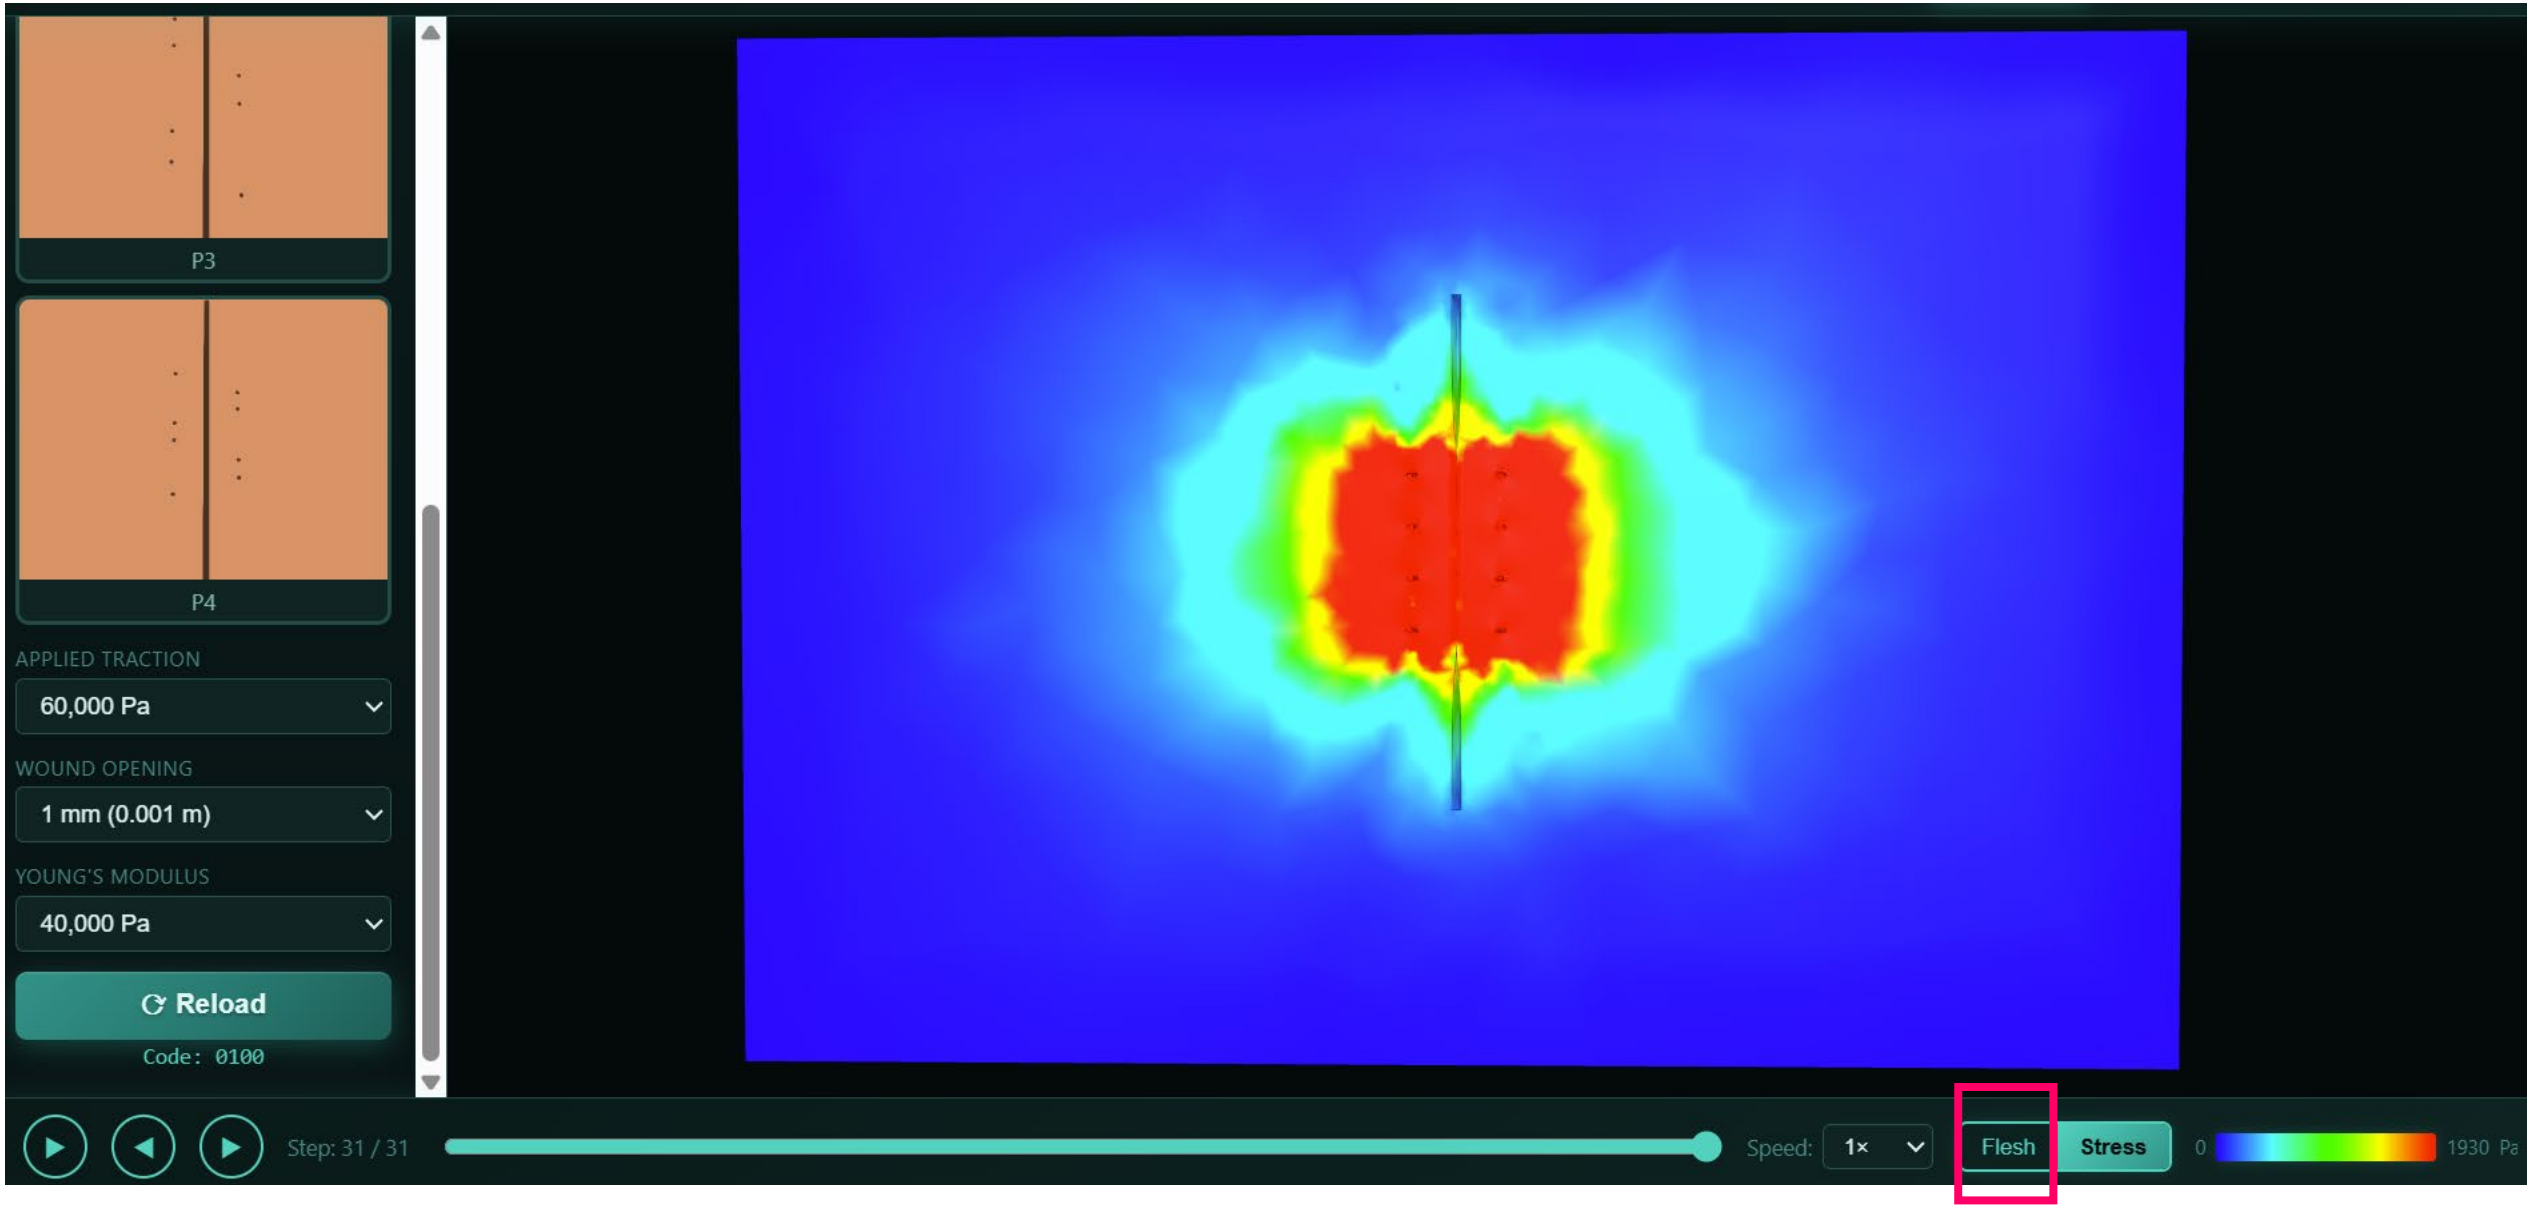


P3
P4
APPLIED TRACTION
30,000 Pa
WOUND OPENING
1 mm (0.001 m)
YOUNG'S MODULUS
40,000 Pa
Reload
Code: 0000
Step: 0 / 31
Speed:
1×
Flesh
Stress
Visualizing deformation step by step forward and backward
Visualizing deformation continuously

After changing any of the parameters, click on **Reload** to update the results for visualization



You can also drag the slider left or right to visualize the deformation



You can click on **Flesh** to se the deformation on plain natural flesh tone of the suture pad
